

CRAZY CHEMWORKS SUMMER CAMP

Class Topics:

Chem in a Flash

Hop on the chemistry express for a high-speed science experience! Perform instantaneous experiments in this fast-paced class on reactions that go like mad! Pick up an Action Flask and perform some snappy chemistry experiments at home!

Che-mystery

Eliminate the mystery in chemistry! Explore one of the most exciting and fundamental sciences as you grow a crazy crystal garden and make your own chemical soda pop!

Dry Ice Capades

Manipulate matter in all of its three states! Melt metal in boiling water and freeze water with just a breath of dry ice! Use your Thermocolor Cup to test the temperature of liquid matter in your home!

Junior Reactors

Create a tiny world of atoms with your very own set of Atomic Coins! Learn to recognize chemical reactions and mix up a few reactive ingredients for some sensational results!

Kitchen Chemistry

Cooking is all about chemistry! Students will be introduced to the laboratory that we call a kitchen for a look at some novel and practical applications of science! Children will build their own Solar Cooker and learn how living organisms cause bread to rise. Dinnertime will never be the same!

Lab Works

Try your hand as a real Mad Scientist in this whirlwind program on how a lab works! Learn to manipulate laboratory equipment at your personal lab bench, and face an egg-citing power pipetting challenge! Take home your very own Scientific Cylinder to continue your research!

p.H. Phactor

Slide down the colorful pH scale and dip into the world of acids and bases! Explore the extremes of pH with your Reaction Tube in what is sure to be a stopper-popping experience! Discover whether liquids found in your home are acids or bases using your personal Phantastic pH Paper!

Slime Time

Ooze into a gooey hour of sliming around! Create slime using the Mad Science recipe, and then enter your creation in the Slime Olympics! Take home your own concoction of Mad Science Slime!

Super Sticky Stuff

Stick to the walls, and push the power of tape to the limits in this adhesive hour on things that cling! Build a bond with glue and get attached to your Icky Creature Beaker!

The Glow Show

Amazing discoveries will come to light in this class on things that glow bright in the dark! Probe the properties of light and explore some unusual applications of glow-in-the-dark technology—including the printing of money! Use your Blacklight Writer to make secret messages that only you can see!
